

# Acton Quarry Extension – Preliminary Footprint

*The preliminary footprint represents approximately 1/3 of Dufferin's additional land holdings in the area*

- The extension is proposed north and south of the existing Quarry.
- It is anticipated that the required applications will be filed in March, 2008.

*The proposed footprint protects and enhances adjacent environmental features*

- Approximately two-thirds of Dufferin's lands will remain as buffer.
- Dufferin has ownership of over 30 hectares where ecological enhancements could be implemented.
